

## The Documentary

The TRUE story of the American right to arms is told by some of the greatest names in American constitutional law -- professors at Yale, UCLA, Fordham, and other institutions, as well as by lifelong scholars of the Second Amendment, such as Steve Halbrook, Dave Kopel, and Don Kates. With the issue now in the Supreme Court Heller case, this is an essential teaching tool, and thus our special offer: additional copies are only \$10. Use extras to win people over! If you'd like a sample, check out the preview clips on Youtube. "In Search of the Second Amendment" recently was selected for the Backlot Film Festival, and was nominated for the American Bar Association's Silver Gavel Award. "I have never seen the story of the Second Amendment so ably presented. ... Every serious firearms activist should have a copy."
